Customer Request Form

Sheet 1 of 3

Name and Address of the Customer	: A.P. TRANSFORMERS SP24 & 95H/1 (SP), Ambattur Indl Estate CHENNAI - 600058
Sample(s) to be tested	: 3 Phase Distribution Transformer
Rating of the sample(s) to be tested	: 250 KVA / 11KV / 433V, 3PH, 50Hz Copper wound
Description of the test sample(s)	: Non Sealed Type - outdoor with Tapping +5% to -10% on the primary side (7taps)
Type	: ONAN outdoor Type Distribution Transformer
Serial Number(s)	: 1098
Manufacturer's Details	: 250 KVA / 11KV / 433V EELI, outdoor type 3PH, 50Hz Copperwound, nonsealed type with tapping +5% to -10% (7taps)
Drawing Number(s)	: APT/250-11/001, APT/250-11/001B
Customers Requirement	: AS per Standard
Criteria for Evaluation (Standard/Specification)	: 1
Number of Samples	: a) Taking back the sample after testing : Yes / No b) Will not take back the sample, CPRI can scrap and dispose it off : Yes / No Note: If samples are not collected as in (a) within 15 days from the date of testing it will be automatically scrapped.
Sample storage / Handling / Disposal	: Type test
Details of test(s) requested	: Mr Vivekanand Krishna Customer representative
Specific instructions (if any) for mounting and connection	: Handed over to person.
Name of the witnessing persons	
Customers Representative	
Other than Customer	
Test Report to be despatched to	
Test report Despatch mode	
Number of Additional Test Reports (Required / not required)

: ☒ Applicable/Not Applicable
(If applicable -customer to provide necessary Documents before testing) Billing to be done accordingly.

Whether statement of conformity is required in the test report
(Please tick the appropriate one)

: Yes ☒ No ☐

a) if No, then only the observed results will be reported

b) If Yes, Please select any one of (i) OR (ii) OR (iii)

☒ i) Decision on compliance to standard/specification will be based on the requirement mentioned in the standard/specification and measurement uncertainty will be reported (if required) (informed to customer for agreement)

☐ ii) For the requirement specified by the customer, same will be considered as decision criteria and measurement uncertainty will be reported (if required) (informed to customer for agreement)

(Deviations requested by the customer in the customer requirement shall be above the requirements of the standard/specification and wherever the requirements need to be specified by the customers or not specified in the standard/specification. Deviations requested by the customer shall not impact the integrity of the laboratory or the validity of the results)

☐ iii) If Measurement Uncertainty is to be considered for the decision on compliance for border cases, calculated Measurement Uncertainty at confidence level of approximately 95% ($k=2$) will be reported and the decision rule for compliance, if MU is subtracted the decision is 'PASS' or MU is added the decision is 'FAIL' (informed to customer for agreement)

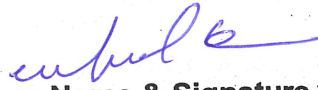

(Decision criteria cannot be changed after the start of the test)

Note: 1) CPRI Website will publish information on manufacturers' name, products tested, test report number & date of issue and corresponding unique sample code number.

2) The terms & Condition document is made available while making the offer from CPRI for testing. The document is also available in CPRI web site www.cpri.in . Customers are requested to go through the document carefully before proceeding for testing.

I/We guarantee that the sample submitted for the test(s) has been manufactured in accordance with the drawings submitted.

I/We have read & understood the terms and condition for testing at CPRI and agree to the conditions stipulated there in.

Sheet 3 of 3

(To be filled by the laboratory)

Physical Condition of Sample on receipt : Suitable for Testing ☒

OR

Not suitable for Testing ☐

Communication to Customer for his concurrence on the Physical Condition of the sample(if not suitable)
(Deviation to be reported) : ☐
Continue Testing

OR

Not to continue Testing ☐

Whether laboratory has capability to take up to the work

: Yes

Name and Address of the Externally Provided Product/Services

: N/S

Name & signature of Test Engineer/Test In charge for accepting the job, with date

: 

(The following information is to be filled during testing, if applicable)

Deviations/Discrepancies if any noticed during testing :

Communication to Customer for his approval of the Discrepancies : By Telephone /in person
(Record of the discussion)

Name & Signature of Test Engineer/Test In Charge (with date)

Name & Signature of Customer with date (if present)
